General Public - Defined as those persons having no economic interest other than a normal consumer

**Reason for Applying**

I have reached a point in my life where it is time to focus my efforts on representing and improving my hometown in whatever capacity I am able to serve. My girls are now grown and it is time to step up and help others as well as be more active in the behind-the-scenes activities that make this town a great place to live.

**Educational Background**

Currently a senior at Tarleton State University. I expect to graduate in May 2022 with an Applied Science degree with a Business Administration concentration. I plan on continuing my education at Tarleton and pursue a master's degree in Quality and Engineering Management.  
Graduated Stephenville High School May 1992

**Occupational Background**

I have been employed with TechnipFMC since August 28, 2000. I started as a machinist and have held several positions throughout my career. I am currently a Senior Supervisor and oversee the safety and production of 20+ direct reports on a daily basis. While striving to achieve financial goals for the company, our team is constantly aspiring to improve and look for leaner and better ways to deliver quality products to our customers that will exceed performance expectations under strenuous conditions.

**Relevant Experience**

We focus on teamwork and betterment for our customers on a daily basis. This requires intense focus, open and honest dialogue, and true collaboration to arrive at a destination that is best for everyone. This is important as being on a team and being willing to hear what others have to say and not be closed-minded to alternate opinions truly allows everyone in the group to contribute. No one person has all of the best ideas, but a diverse group of people who are willing to put personal agendas aside and focus on the task at hand will always deliver results. I am a firm believer in that and my experience in developing teams that work toward a common goal would be a valuable resource.

**Community Involvement**

Up to this point, the majority of my community involvement was through my children. Whether it be in the schools they were in at the time or working alongside the former percussion director, Michel Wimberly, for the last seven years as the percussion parent for the Yellow Jacket Band. As an employee of TechnipFMC, I have coordinated yearly highway trash pickups along the Northwest Loop that TechnipFMC employees and volunteers patrol. I am currently a member of the 2022 Leadership Stephenville class and a new volunteer for Meals on Wheels.

Education - Serving in higher education at high school level or beyond

**Reason for Applying**

I have lived in Stephenville since 2015, when I moved here for my job with Tarleton State University. My daughter is close to graduating from Stephenville Hight School and I am wanting to become more involved in my community in an official role. With my daughter graduating soon, I will be able to dedicate my time and talent more so than I would have in the past.

Stephenville is unique in that it is made up of different communities of people, within a growing population that is continually expanding and changing. We have people that are local and have generational roots here, we have transplants that maybe came for college and fell in love with the community and want to raise their families here and then we have college students who are here for 4-6 years and bring a unique outlook and have quite a bit of disposal income to use here. I am one of those that came here after researching the school districts for my daughter and the community. I was able to find a job at the university and I love the fact that the town is growing but still puts an emphasis on retaining the small town feel and focus of community and home.

**Educational Background**

Bachelors in Business from Midwestern State University

Masters in Communication from Tarleton State University

**Occupational Background**

I work in the Alumni Association of Tarleton State University, as the Assistant Director.

I spent many years in the corporate finance world in downtown Dallas in accounting with World Travel BTI.

I worked 5 years in Healthcare as the Executive Assistant, head of HR and as the Public Relations officer for Stephens Memorial Hospital in Breckenridge. I also headed up the Foundation Board of Directors for fundraising and community relations.

**Relevant Experience**

I currently work with the Tarleton State University Alumni Association Board of Directors.

Previous work with the Board of Directors of the Stephens Memorial Hospital as well as the Foundation Board of Directors for the hospital.

Education - Serving in higher education at high school level or beyond

**Reason for Applying**

My husband and I just recently moved to Stephenville (June, 2021), when I started a new position at Tarleton State University. I was active in my community when I lived in Macomb, IL (1993-2017), and for the four years we lived in Marshall, MN, I volunteered at the local Farmers' Market and served on the public library governing board. While I enjoyed the library board and would be willing to serve in that capacity again in Stephenville, if needed, I am hoping to do something different and the Main Street Advisory Board sounds interesting and like something I would enjoy.

**Educational Background**

Bachelor's degree in Political Science - University of Central Arkansas

Ph.D. in Political Science - Vanderbilt University

**Occupational Background**

Currently, I am the Associate Provost and Associate VP for Curriculum and Faculty Affairs, and Dean of Faculty at Tarleton State. Prior to coming to Tarleton, I was the Dean of the College of Arts, Letters, and Sciences at Southwest Minnesota State University.

From 1993-2017, I was a faculty member at Western Illinois University, then moved into the role of department chair from 2008 until I moved to Minnesota in 2017.

**Relevant Experience**

As mentioned above, I served on a public council (Marshall-Lyon County Public Library) in Marshall, MN, and enjoyed getting to know the community and contributing my experience with the university library to the board. I was also a volunteer at the local farmers' market, which was held weekly and actively sought grants to support low income people. The farmer's market could distribute tokens for EBT (food stamps) funds, that could be spent at the farmer's market for fresh produce from the vendors who would accept them... which was almost all of them. I served as a volunteer to run the EBT cards and distribute tokens to people at the market, and then collect them from vendors at the end of the market and record their sales from tokens. The market's administrator would distribute the equivalent cash funds to the vendors monthly. There were also grant funds to distribute different tokens ("The Power of Produce" tokens) worth \$2 to children aged 4-12 to spend at a vendor's stall on fruits or vegetables. Children could collect a \$2 token each week and save up if they wanted something pricier like a pumpkin in the fall. I helped keep track of the children who signed up and distribute the tokens to them, and again, collect those from vendors at the end of the day and record their sales for reimbursement from grant funds. Although I do not know that the Stephenville Farmers' Market is handled by the Main Street Advisory Council, I do know how events can promote downtown activity.

Lastly, and this is purely an observation on my part, both my children attended universities where the town and university worked closely together to promote activities in the community when the

university held events. For instance, at Truman State University, there was a \*huge\* craft and vendor fair in downtown Kirksville, MO the weekend of family weekend at the university. The university is about half the size of Tarleton but there would be a huge influx of people to town that weekend. Similarly, my daughter who went to Iowa State benefited from the relationship between merchants in town and the university when she served as the editor-in-chief of the student published fashion magazine there. And this wasn't just merchants donating things... this was collaborative relationships that benefited merchants as well. When I was at Western Illinois University, those sorts of relationships were starting to be developed (a picnic for incoming students hosted by the community), but there were a lot more opportunities to develop those partnerships. I have only been at Tarleton since July 1, so do not know what is already taking place, but those experiences and observations make me more more interested in the Main Street Advisory Council at this time.
