Plan Review Guidelines

These are the plan review guidelines for the Stephenville Fire Prevention Office.

1. All plans will be reviewed by SFD personnel.
2. If necessary plans may be sent out for a third party review. Fees are only collected when plans are sent for a third party review.
3. Turnaround time for each plan review submittal depend upon the size and nature of the submittal and its impact on the project construction schedule.

Note: These are guidelines only. If the Fire Prevention Office determines outside plan review is necessary the owner will be notified and plans will be submitted for outside review.
